

Beslutningsforslag nr. B 106. Fremsat den 25. marts 1980 af Thorndahl (FP), Pilgaard Andersen (FP), Askjær Jørgensen (FP), Knud Lind (FP) og Tang Sørensen (FP)

Forslag til folketingsbeslutning om kommunal indkomstpolitik

Folketinget opfordrer regeringen til i overensstemmelse med det samtidig fremsatte forslag til lov om maksimering af kommunernes skatteudskrivningsret at beslutte, at kommunernes samlede udskrivning af indkomst- og ejendomsskat i 1981, bortset fra stigninger som følge af pris- og lønstigninger,

ikke må overstige den samlede kommunale indkomst- og ejendomsskatteudskrivning i 1980, og at den samlede kommunale skatteudskrivning i de følgende 5 år tilsvarende reduceres med 2 pct. hvert år, således at den samlede kommunale skatteudskrivning i 1986 udgør 90 pct. af skatteudskrivningen i 1980.

Bemærkninger til forslaget

Som bilag er optrykt en oversigt over beslutningsforslagets konsekvenser for landets primærkommuner, dels i 1981 og dels i 1986. Beløbene er angivet i millioner kroner og alle i prisniveau 1980. Af oversigten fremgår desuden skatteudskrivningen i 1980 og udgiftsbehovstallene for 1980 samt de beregnede tilskud eller tilsvær som følge af udligningsordningerne.

Den maksimale skatteudskrivning beregnes, og forskellen mellem den fremtidig tilladte skatteud-

skrivning og den nuværende bestemmes.

Forslaget får kun virkning for de kommuner, der i dag udskriver mere, end de fremover får adgang til.

Beslutningsforslaget får virkning for 55 primærkommuner i 1981 og for 76 primærkommuner i 1986.

Forslagets økonomiske konsekvenser er sammenfattet i nedenstående oversigt over de samlede besparelser i millioner kr.
